RE: MB Docket No 05-311 In the Matter of Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992

We are writing in support of the Comments of the Cable Act Preservation Alliance ("CAPA") in the Second Further Notice of Proposed Rule Making. We oppose the tentative conclusions the FCC reaches in the proceeding because of their impacts on our community.

Our church has been broadcasting our services on ICRC in our local communities. This has enabled to serve a wider faith community in our area that we would otherwise be able to serve. Removing funding from ICRC and the Public Educational and Government Access and community television would reduce the opportunity for these individuals to access the programming that they want.

This benefit for people of faith was what was intended when Congress set up the Cable Act. PEG Access does not solely benefit a local government or franchising authority: It benefits and strengthens the community as a whole.

By allowing cable operators to reduce franchise fee support for local communities if they opt for local channels, the FNPRM diminishes the ability of PEG channels to serve communities such as ours. We ask that it not be adopted.

Thank you.

Yours sincerely,

Kyle Linville
